

With the support of the United States Department of Agriculture, the BeninCajù project aims to strengthen the Beninese cashew sector.

Technical assistance to financial institutions

One of BeninCajù's goals is to encourage the banking sector to provide more loans to cashew nut processors.

To mitigate the risks that banks and financial institutions often face, BeninCajù can provide banks with free and confidential technical support.

AGENT TRAINING

- **We train and assist your agents** to better understand the value chain, better assess the value and quality of stocks (including quality parameters such as KOR) and better understand the cashew value chain.

MARKET ANALYSIS

- **We provide a global market analysis** to help you better understand cashew price trends.

PERFORMANCE OVERVIEW

- **We give you relevant performance criteria** to enable you to measure your clients' performance against others in the same sector.

TECHNICAL OPINIONS

- **We help you analyze the quality of proposals submitted by your contractors** to help you make informed decisions.
